I didn't bother pickin up the phone
Want to get there first I want ya all alone
There's gonna be blood on the walls on a highway south
Your scripture won't save you when my guns in your mouth

[Chorus]

I was 18 when I first came here
Just me and my brother tryin to disappear
He chose the prophet baby I chose you
From that day I feared what he could do

[Chorus]

I took the corner and I gunned it hard
Drove my truck into your front yard
You came out runnin but I was too fast
I took out your legs and dropped you in the grass
There people outside I heard somebody scream

You wish you couldn't but I know you can, You can

I Would Be Sad

The Avett Brothers

Tuning: E A D G B E | Key: A | Capo: 2nd fret

Capo 2 for this version - https://www.youtube.com/watch?v=h-d0Xfyt7so
Capo 1 for the album version.

It's a pretty simple song as long as you listen for the rhythm.

There is on small riff between every transition from G to Em. Simply walk down 3-2-0 on the E string.

[Open on the Chorus]

```
G          Em          C                    G
I would be sad because you left me all alone.
G          Em          C                        G
I would be sad because the lies that you had told.
G          Em           C              D
I would be sad because I got left by a girl that I adore.
G          Em           C                    G
I would be sad because the love I had before.
```

[Verse 1]

```
G                                  Em                            C
I meant what I said when I said I would settle down with you although I know
                           D
it's not something that you were asking me to do.
G                                     Em                                  C
And I know we are young but we won't always be, so marry me; let's not be
                        D
that predictable young couple changing, moving on.
G                                    Em
But I can tell by watching you that theres no chance of pushing through.
    C                                 D
The odds are so against us; you know most young love it ends like this.
```

[Chorus]

```
G          Em          C                    G
I would be sad because you left me all alone.
G          Em          C                        G
I would be sad because the lies that you had told.

```

[Verse 2]

```
G                               Bm      C            D
I meant what I said when I said I would rearrange my plans and
            G
change for you.
G                                  Em
You know me; I've always been the kind with easy confidence.
C                           D                                  G
Confident enough to honestly beleive that nothing out there stopping me
                Em
especially not someone who's not loving me.
C                                   D
Now listen here I told you I could live on with out loving you.
C                                  D
I was bluffing then, but it seems that just might have been the truth.
G                                          Em
Well my dad told me, "One day son, this girl will think of what she's done
    C                                  D
and hurting you will be the first of many more regrets to come."

G                                          Em
And he said, "If she doesn't call, then it's her fault and it's her loss."
   C                                     D
I say, "It's not that simple see, but then again it just may be."
```

[Chorus/Ending]

```
G          Em          C                    G
I would be sad because you left me all alone.
G          Em          C                     G

On a dark desert highway, cool wind in my hair.

Tuning: E A D G B E

Notes:  Some chords are played between lyrics, so listen to the track for
those chord changes. Also, as a performance practice (especially for acoustic
guitar), I like splitting the 2 measure A-Major chords into one measure of A,
and the second measure an A-maj7. [In this TAB, illustrated in brackets].

E A E A     E
       On a warm summer's eve
```

[Verse 1]

```
     A                  E
On a train bound for nowhere
I met up with the gambler
                              B7
We were both too tired to sleep
   E
So we took turns astarin'
        A                 E
Out the window at the darkness
    A              E
The boredom overtook us,
B7                    E
  And he began to speak
He said, "Son, I've made a life
       A                  E
Out of readin' people's faces
Knowin' what the cards were
                           B7
By the way they held their eyes
      E
So if you don't mind me sayin'
I can see you're out of aces
      A                 E
For a taste of your whiskey
     B7                   E
I'll give you some advice"
```

[Verse 2]

```
     E
So I handed him my bottle
       A                  E
And he drank down my last swallow
Then he bummed a cigarette
                         B7
And asked me for a light
        E
And the night got deathly quiet

But it's something you ain't got
G                A          Bm

Original recording is somewhere between 1/4 and 1/2 step sharp.
Maybe try capo 1 and detuning slightly.

If I Get Murdered In The City

The Avett Brothers

Capo: 2nd fret

Murdered In The City

Not sure quite how it's picked out, but this is the chords. I personally just play it these.

Capo 2nd Fret(Live version from Youtube)
The album version uses a capo on the 3rd fret.

[Verses]

```
C         G           Am
If I get murdered in the city
F         G               C
don't go revenging in my name
C          G                 Am
One person dead from such is plenty
F          G             C
No need to go get locked away.
Am       G         C
When I leave your arms
Am      G              C
the things that I think of
Am      G        F       C
No need to get overalarmed
Am       G
I'm coming home
```

Interlude goes something like

C G Am F C G C

Just like the beginning verse but C and G reversed.

```
C        G             Am        G
I wonder which sibling is better
F       G                    C
which one our parents loved the most
C          G              Am      G
I sure did get in lots of trouble
F         G              C
They seemed to let the other go
Am             G            C
A tear fell from my fathers eye
Am            G              C
I wondered what my dad would say
***Careful here it changes up a bit***
Am          G        C                F
He'd say I love you and I'm proud of you both

The Lakes Of Pontchartrain (ver 3)

Tuning: E A D G B E | Capo: No capo

The Lakes of Pontchartrain - traditional American, most well known recording by Paul Brady

Standard tuning, I play this with a simple strumming pattern to accompany myself as I am a singer not a guitarist. It is not intended to be a representation of how Paul Brady plays it. Capo where you like to suit your voice.

Canadee-I-O

Bob Dylan

Capo: No capo

This is off his 1992 album Good As I Been To You. It's a beautiful Irish folk song around 200 years ago I think. Played down a whole step   D-G-c-f-a-d. Play Intro before verse. After the last verse play the chords for a verse for the instrumental close. can sprinkel the progession with sus4 chords and some hammers like Dylan does on the album.

Spring Wind

Greg Brown

Tuning: E A D G B E | Capo: 2nd fret

[Verse 1]

```
A                   D
I lived awhile without you
E                  F#m
Darn near half my life
                    D
I no longer see our unborn children
        E
Born to you my unwed wife
    D                  A
But yesterday I had a vision
            E                   F#m
Beneath the tree where we once talked
                          D
Of an old couple burning their love letters
         E
So their children won't be shocked
```

[Chorus]

```
     D              A
Love calls like the wild birds
E            F#m
It's another day
                       D
A spring wind blew my list of
G                  A
Things to do ... away
```

[Verse 2]

```
   A                  D
My friends are gettin older
     E               F#m
So I guess I must be too
              D
Without their love and kindness
  E
I don't know what I'd do
       D                   A
Oh the wine bottle's half empty
    E           F#m
The money's all spent

[Verse 3]
     A                 D
In a mucked up, lovely river

I cast my little fly

I look at that river and smell it

And it makes me wanna cry
       D               A
Oh, to clean our dirty planet
    E               F#m
Now there's a noble wish
                             D
And I'm puttin my shoulder to the wheel
         E
'cause I wanna catch some fish

Turning tricks on sunset, twenty bucks a pop
     Bm                                  G
Some out of town old business man or an undercover cop
D                                  Bm
I'm living with a virus flowing way down in my veins
G                     D
Oh I wish it would rain

D                                  F#m
I know you've heard my story or seen me on the street
Bm                                    G
Just another cracker gigolo dressed up like trick or treat
D                                  Bm
Now you may want to judge me or treat me with disdain
G                   D
Oh I wish it would rain

G
Memphis, Texas; Houston, Tennesee
        D
Man I'm just so turned around I don't know where I want to be
G
This California desert is driving me insane

Oh I wish it would rain

D                                          F#m
So I've squandered my resistance, taking any kind of drug
    Bm                             G
I'd smoke or shoot or eat it, I'd drink it from a jug

I offer no excuses for your sympathies to gain
G                  D
Oh I wish it would rain

G
Everybody knows me as the kid
     D
I've made it seven years still I don't know how I did
G
I come from a long line of live and love in vain

Oh I wish it would rain

D                                     F#m
So I've prayed to mother Mary, I've even seen a priest

When the angels come to get me, I know I'll be released

I'll leave this mean old desert bound for Memphis on that train

[Verse 1]
G
She went down last October
C G
In a pouring driving rain
Am
The skipper he'd been drinking and
C D
The mate he felt no pain
G
Too close to Three Mile Rock and she was
C G
Dealt her mortal blow
Am D
And the Mary Ellen Carter settled low

G
There was just us five aboard her
C G
When she finally was a-wash
Am
We worked like hell to save her
C D
All heedless of the cost
G
And the groan she gave as she went down
C G
It caused us to proclaim
Am D G
That the Mary Ellen Carter would rise again

|C D |G |
|C D |

[Verse 2]
G
Well the owners wrote her off
C G
Not a nickel would they spend

```
          Am
"She gave twenty years of service, boys
     C             D
Then met her sorry end
      G
But insurance paid the loss to us
   C              G
So let her rest below."
          Am
Then they laughed at us
                   D
And said we had to go

       G
But we talked of her all winter
     C               G
Some days around the clock
      Am
She's worth a quarter million
 C                D
Afloat and at the dock
         G
And with every jar that hit the bar
   C                G
We swore we would remain
             Am         D          G
And make the Mary Ellen Carter rise  again!

[Chorus]
     Am      D     G
Rise   again, rise  again
         C
That her name not be lost
       G            D
To the knowledge of men
    G
All those who loved her best and
     C         D       G
Were with her 'til the end
              Am         D          G
Will make the Mary Ellen Carter rise  again

[Verse 3]
    G
All spring now we've been with her
     C               G
On a barge lent by a friend
      Am
Three dives a day in a hardhat suit and
C                  D
Twice I've had the bends
      G
Thank God it's only sixty feet and
    C                 G
The currents here are slow
       Am
Or I'd never have the strength
        D
To go below

          G
But we've patched her rents, stopped her vents
       C                  G
Dogged hatch and porthole down
    Am
Put cables to her fore and aft
    C           D
And girded her around
  G
Tomorrow noon, we hit the air
    C                 G
And then take up the strain and
         Am         D          G
Make the Mary Ellen Carter rise  again!

[Chorus]
     Am      D     G
Rise   again, rise  again
         C
That her name not be lost

To the knowledge of men

All those who loved her best and

For we couldn't leave her there,

You see, to crumble into scale
      Am
She'd saved our lives so many times
C                  D
Living through the gale
        G
And the laughing, drunken rats
             C          G
Who left her to a sorry grave
     Am                           D
They won't be laughing in another day
    G                          C               G
And you to whom adversity has dealt the final blow
     Am
With smiling bastards lying to you
C              D
Everywhere you go
     G
Turn to and put out all your strength
   C                 G
Of arm and heart and brain

And like the Mary Ellen Carter rise  again!

Honey tell me how your love runs true

A
 To be there when the bullets fly
    G                                          D
I'd run across the river just to hold you tonight

[Verse 3]
        D
Well my heart is sweating bullets

From the circles it has raced

Like a little feathered indian
Callin' out the clouds for rain
       D
I'd go runnin' through the thicket
       A
I'd go careless through the thorns
        G
Just to hold her for a minute
Though it'd leave me wanting more

[Chorus]
A               G
Hold me close my dear
A                   G
Sing your whispering song

C                      G Am                                  G C

Anyway,   what you gonna do about it?"

C                   G    Am                       F

Johnny Cash

Tuning: E A D G B E | Key: Am | Capo: No capo

Note: to play the chorus correctly and simulate the piano playing, keep the G on the third fret of the high e string fretted with your pinky. This makes the chords G major, Am7, Fadd9, and C major. I also suggest playing a Hendrix Fadd9, so wrap your thumb and play 1st fret low E string:

Am7 x-0-2-2-1-3
Fadd9 1-x-3-2-1-3
C x-3-2-0-1-3
G 3-x-0-0-0-3

The strum pattern for Intro/Verse/Transition is picked for the downs and strummed for the ups.
I suggest picking the A and D strings, and then up strum.

[Verse 1]

```
    C          G           F             C
I remember you well in the Chelsea Hotel
                     G            Am
You were talking so brave and so sweet
C         G           F           C
Giving me head on the unmade bed
          F                      G
While the limousines wait in the street
Am                         F
Those were the reasons and that was New York
        C               Em/B          Am
We were running for the money and the flesh
    F                              C
And that was called love for the workers in song
         F                            G
Probably still is for those of them left
```

[Chorus]

Ah, but you got away, didn't you babe?
                     Em/B        Am
You just turned your back on the crowd
F                          C

  F                 C
I need you, I don't need you"

[Verse 2]

```

I remember you well in the Chelsea Hotel

You were famous, your heart was a legend
    C        G                  F            C
You told me again you preferred handsome men
        F                               G

[Intro]

G - C/G   G - C/G   G

[Verse 1]

```
G               G          G                G
Busted flat in Baton Rouge, waitin' for a train
         G               G        D7      D7
When I's feelin' near as faded as my jeans
D7              D7        D7               D7
Bobby thumbed a diesel down just before it rained
     D7              D7            G - C/G    G
And rode us all the way into New Orleans

  G             G             G             G
I pulled my harpoon out of my dirty red bandana
    G                  G7              C    C
I's playin' soft while Bobby sang the blues
C                  C                 G                G
Windshield wipers slappin' time, I was holdin' Bobby's hand in mine
D7             D7               D7   D7
We sang every song that driver knew
```

[Chorus]

```
C               C             G                 G

D7                D7                           G    G

    C               C             G                G
And feelin' good was easy, lord, oh, when he sang the blues

Copenhagen
by Robert Earl Keen Jr.

C                                   F
Now, I went out last Sunday with my little Mary-Ann
    G                                                   C
She said please stay still Monday, and grabbed me by my can
    C                     F
She laid a big one on me, suprised me with her tounge,
    G                                                   C
But her suprise was waitin' there, between my cheek and gum.

Chorus:
C
Copenhagen, what a wad of flavor.
C                                 G
Copenhagen, you can see it in my smile.
C
Copenhagen, do yourself a favor.
     C                      G            C
Chew Copenhagen, drive them pretty girls wild.

So I went to the movies with my little Peggy-Sue,
I had my dip there in my lip just like I always do.
She didn't know that I was spittin' in my Coca-Cola cup,
she took a great big swoller' and threw her popcorn up!  Oh!

Chorus:

The moral of this story is so very sad but true.
If you stay 'till breakfast friend, they'll want to marry you.
So try my little method and I promise you no doubt
Dip some Copenhagen if you want to snuff 'em out.

This song has a great little intro to each verse.  It goes something like
this....

El Paso

Marty Robbins

Key: D | Capo: No capo

[Intro]
D Em A7 D

[Verse 1]
D Em
Out in the West Texas town of El Paso
A7 D
I fell in love with a Mexican girl
Em
Nighttime would find me in Rosa's Cantina
A7 D
Music would play and Feleena would whirl

[Verse 2]
D Em
Blacker than night were the eyes of Feleena
A7 D
Wicked and evil while casting a spell
Em
My love was deep for this Mexican maiden
A7 D D7
I was in love, but in vain, I could tell

[Verse 3]
G
One night a wild young cowboy came in
D
Wild as the West Texas wind
Dashing and daring, a drink he was sharing
G
With wicked Feleena, the girl that I loved

[Verse 4]
A7 D Em
So in anger I challenged his right for the love of this maiden
A7 D
Down went his hand for the gun that he wore
Em
My challenge was answered in less than a heartbeat

```
    A7                                          D    D7
The handsome young stranger lay dead on the floor

[Verse 5]
G
Out through the back door of Rosa's I ran
                           D
Out where the horses were tied
I caught a good one, it looked like it could run
                                G
Up on its back, and away I did ride
        A7        D
Just as fast as I could from

[Verse 6]
               Em
The West Texas town of El Paso
A7                              D
Out to the badlands of New Mexico
                   Em
Back in El Paso my life would be worthless
A7                                      D
Everything's gone in life, nothing is left

[Verse 7]
D                             Em
It's been so long since I've seen the young maiden
A7                                   D    D7
My love is stronger than my fear of death

[Verse 8]
G
I saddled up and away I did go
                     D
Riding alone in the dark
Maybe tomorrow a bullet may find me
                                            G
Tonight nothing's worse than this pain in my heart

[Verse 9]

```
       A7          D                   Em
And at last here I am on the hill overlooking El Paso
A7                           D
I can see Rosa's Cantina below
                            Em
My love is strong and it pushes me onward
A7                                D
Down off the hill to Feleena I go
```

[Verse 10]

```
D                       Em
Off to my right I see five mounted cowboys
A7                                D
Off to my left ride a dozen or more
                            Em
Shouting and shooting, I can't let them catch me
A7                                  D   D7
I have to make it to Rosa's back door
```

[Verse 11]

```
G
Something is dreadfully wrong for I feel
                              D
A deep burning pain in my side
Though I am trying to stay in the saddle
                                 G
I'm getting weary, unable to ride
```

[Verse 12]

```
       A7         D                       Em
But my love for Feleena is strong, and I rise where I've fallen
A7                                    D
Though I am weary I can't stop to rest
                            Em
I see the white puff of smoke from the rifle
A7                                 D
I feel the bullet go deep in my chest

Kissing my cheek as she kneels by my side
                           Em
Cradled by two loving arms  that I'll die for
A7                                   D
One little kiss, and Feleena, goodbye

Sometimes it hurts
But when you read the writing on the wall

With my heart in my hands
Waiting for time to come and mend it

I can't cry anymore

I Guess this is played on a banjo with alternative tuning. I like the sound I get when using theese chords for the intro/verse/instrumental parts:

Am

[Verse 1]

```
E Am           C
    To the town of Agua Fria
          Am
Rode a stranger one fine day
       C
Hardly spoke to folks around him
                        Am
Didn't have too much to say
       F
No one dared to ask his business
       C
No one dared to make a slip
For the stranger there among them
      Am
Had a big iron on his hip
F               C
Big iron on his hip
```

[Verse 2]

```
          C
It was early in the morning
          Am
When he rode  into the town
        C
He came riding from the south side
                        Am
Slowly looking all around
          F
"He's an outlaw loose and running"
         C
Came the whisper from each lip
"And he's here to do some business
         Am
With the big iron on his hip"
F               C
Big iron on his hip
```

[Verse 3]

```
            C
In this town there lived an outlaw
       Am
By the name of Texas Red
     C
Many men had tried to take him
                        Am
And that many men were dead
       F
He was vicious and a killer
         C
Though a youth of twenty four
And the notches on his pistol
            Am
Numbered one  and nineteen more
F                C
One and nineteen more
```

[Verse 4]

```
             C
Now the stranger started talking
             Am
Made it plain  to folks around
           C
He was an Arizona ranger
                         Am
Wouldn't be too long in town
        F
He came here to take an outlaw
           C
Back alive, or maybe dead
And he said it didn't matter;
         Am
He was after Texas Red
F           C
After Texas Red
```

[Verse 5]

```
           C
Wasn't long before the story
```

              Am
Was relayed to  Texas Red
              C
But the outlaw didn't worry
                            Am
Men that tried before were dead
          F
Twenty men had tried to take him
          C
Twenty men had made a slip
Twentyone would be the ranger
         Am
With the big iron on his hip
F               C
Big iron on his hip
```

[Verse 6]

```
    C
The morning passed so quickly;
           Am
It was time  for them to meet
       C
It was twenty past eleven
                            Am
When they walked out in the street
           F
Folks were watching from the windows
     C
Everybody held their breath
They knew this handsome ranger
     Am
Was about to meet his death
 F                C
About to meet his death
```

[Verse 7]

```
          C
There was forty feet between them
          Am
When they stopped to make their play
        C
And the swiftness of the ranger
```

Big Iron

Marty Robbins

Tuning: E A D G B E | Key: E | Capo: 4th fret

```
                          Am
Is still talked about today
      F
Texas Red had not cleared leather
        C
'Fore a bullet fairly ripped
And the ranger's aim was deadly
         Am
With the big iron on his hip
F               C
Big iron on his hip
```

[Verse 8]

```
        C
It was over in a moment
             Am
And the folks  had gathered round
        C
There before them lay the body
                     Am
Of the outlaw on the ground
       F
Oh, he might have went on living
           C
But he made one fatal slip
When he tried to match the ranger
         Am
With the big iron on his hip
F               C
Big iron on his hip
```

[Outro]

```
    F         C
Big iron, big iron
When he tried to match the ranger
         Am
With the big iron on his hip

D                     C6
We drove that car as far as we could
D                     C6
Abandoned it out West
D                     C6
Split up on a dark sad night

Both agreeing it was best.

She turned around to look at me
D                  G
As I was walkin' away
A               Bm
I heard her say over my shoulder,

"We'll meet again someday on the avenue,"

```
D                     C6
I had a job in the great north woods
D                     C6
Working as a cook for a spell
D                     C6
But I never did like it all that much
      G
And one day the ax just fell.
D                     C6
So I drifted down to New Orleans
D                     C6
Where I happened to be employed
D                     C6
Workin' for a while on a fishin' boat
      G
Right outside of Delacroix.
A                             Bm
But all the while I was alone
D                  G
The past was close behind,

I seen a lot of women

She was workin' in a topless place
D                     C6
And I stopped in for a beer,
D                     C6
I just kept lookin' at the side of her face

In the spotlight so clear.
D                     C6
And later on as the crowd thinned out
D                     C6
I's just about to do the same,
D                     C6
She was standing there in back of my chair

and offered me a pipe
D                     C6
"I thought you'd never say hello," she said

"You look like the silent type."

And handed it to me

D                    C6
Written by an Italian poet

From the thirteenth century.
A                    Bm
And every one of them words rang true
D                  G
And glowed like burnin' coal

Pourin' off of every page
     D                    G            A
Like it was written in my soul from me to you,

D                    C6
In a basement down the stairs,
D                    C6
There was music in the cafes at night
      G
And revolution in the air.
D                    C6
Then he started into dealing with slaves
D                    C6
And something inside of him died.
D                    C6
She had to sell everything she owned

And froze up inside.
A                   Bm
And when finally the bottom fell out
D                  G
I became withdrawn,

The only thing I knew how to do
     D                    G            A

[Verse 1]

```
 G                  D
I am thinking its a sign
                          Cadd9
that the freckles in our eyes are mirror images
   G/B                    D
and when we kiss they're perfectly aligned
    G               D
and I, have to speculate
                     Cadd9
that god himself did make us into corresponding
G/B                D
shapes like puzzle pieces from the clay
    G                         D
and true, it may seem like a stretch
                                  Cadd9
but it's thoughts like this that catch my troubled head
             G/B             D
when you're a-way, when I am missing you to death
G                             D
when you are out there on the road
                     Cadd9
for several weeks of shows

The Sound Of Silence (ver 2)

Simon & Garfunkel

Tuning: E A D G B E | Key: Ebm | Capo: 6th fret

[Verse 1]

```
Am                          G
   Hello darkness, my old friend,
                              Am
I've come to talk with you again,
                        F      C
Because a vision softly creeping,
                           F       C
Left its seeds while I was sleeping,
        F                                 C
And the vision that was planted in my brain
             C/B Am    C
Still remains
           G        Am
Within the sound of silence.
```

[Verse 2]

```
                              G
In restless dreams I walked alone
                           Am
Narrow streets of cobblestone,
                        F        C
'neath the halo of a street lamp,
                             F         C
I turned my collar to the cold and damp
        F                                                 C
When my eyes were stabbed by the flash of a neon light
                     C/B Am    C
That split the night
                 G        Am
And touched the sound of silence.
```

[Verse 3]

```
                           G
And in the naked light I saw
                             Am
Ten thousand people, maybe more.
                        F       C
People talking without speaking,
                        F       C
People hearing without listening,
                F                           C
People writing songs that voices never share
```

The Sound Of Silence (ver 2)

Simon & Garfunkel

Tuning: E A D G B E | Key: Ebm | Capo: 6th fret

```
               C/B Am    C
And no one dare
            G        Am
Disturb the sound of silence.

[Verse 4]
                         G
Fools said I, you do not know
                        Am
Silence like a cancer grows.
                        F           C
Hear my words that I might teach you,
                       F           C
Take my arms that I might reach you.
       F                           C        C/B Am
But my words like silent raindrops fell,
    C             G        Am
And echoed in the wells of silence

[Verse 5]
                         G
And the people bowed and prayed
                       Am
To the neon god they made.
                           F      C
And the sign flashed out its warning,
                        F      C
In the words that it was forming.
                         F
And the sign said, the words of the prophets
                           C
Are written on the subway walls
                  C/B Am
And tenement halls
    C               G         Am
And whisper'd in the sounds of silence.

Capo 4

[Verse]

```
C                Cmaj7
I've seen love go by my door
     F
It's never been this close before
C             Cmaj7       G7
Never been so easy or so slow
          C                       Cmaj7

It always has hit me from below

But this time 'round it's more correct
F
Right on target, so direct
C                   G                 C
You're gonna make me lonesome when you go

C                 Cmaj7            G7
You could make me cry if you don't know
C                      Cmaj7

    F
You might be spoilin' me too much, love

                 Am                 G          D/F#
And yet I don't know anybody who's truly satisfied

Take Me Home, Country Roads
John Denver 1971

https://en.wikipedia.org/wiki/Take_Me_Home,_Country_Roads

[Intro]*

A

[Verse]

A **F#m**
Almost heaven, West Virginia,
E **D** **A**
Blue Ridge Mountains, Shenandoah River.
F#m
Life is old there, older than the trees,
E **D** **A**
Younger than the mountains, growin' like a breeze.

[Chorus]

A **E**
Country roads, take me home,
F#m **D**
To the place I belong:
A **E**
West Virginia, mountain momma,
D **A**
Take me home, country roads.

[Verse]

A **F#m**
All my mem'ries, gather 'round her,
E **D** **A**
Miner's lady, stranger to blue water.
F#m
Dark and dusty, painted on the sky,
E **D** **A**
Misty taste of moonshine, teardrop in my eye.

[Chorus]

The radio reminds me of my home far away.
    F#m              G
And drivin' down the road,
        D              A                     E
I get a feelin' that I should have been home yesterday,

Tuning: E A D G B E | Capo: No capo

[Verse 1]

```
D
Cowboys ain't easy to love
                        G
And they're harder to hold
  A
They'd rather give you a song
                    D
Than diamonds or gold

 D
Lonestar belt buckles

And old faded levis
     G
And each night begins a new day
        A
If you don't understand him

And he don't die young
                            D
He'll prob'ly just ride away
```

[Chorus]

```
  D
Mamas, don't let your babies
                  G
Grow up to be cowboys
       A
Don't let 'em pick guitars

Or drive them old trucks
 A
Let 'em be doctors
                   D
And lawyers and such
  D
Mamas don't let your babies
                  G
Grow up to be cowboys
                 A
Cause they'll never stay home

And they're always alone

And clear mountain mornings

Little warm puppies and children
                    D
And girls of the night
  D
Them that don't know him

Won't like him and them that do
   G
Sometimes won't know how to take him
          A
He ain't wrong, he's just different

But his pride won't let him
                                    D
Do things to make you think he's right

~~ The example above shows the verse, but it can be applied to every other section of the song!
~~ I would recommend muting the higher e-string if you strum the chords, this fits the song better
   in my opinion.
~~ Tip: It also sounds nice to play a good old Cadd9 in the chorus ;)

Cmaj7                   G
Won't have to drive too far

```
         Cmaj7              G
You see, my old man's got a problem:

He live with the bottle, that's the way it is.

My mama went off and left him, she wanted more from life than he could give,

I said, "Somebody's got to take care of him."

[Verse 3]
                  G
I've been spending way too long checking my tongue in the mirror
    D
And bending over backwards just to try to see it clearer
    Em
But my breath fogged up the glass
         C
And so I drew a new face and I laughed
  G
I guess what I'll be saying is there ain't no better reason
   D
To rid yourself of vanities and just go with the seasons

Open up your plans and damn you're free

Long Black Veil (ver 2)

Misc Traditional

Capo: No capo

```
This version is transcribed in Two-Different Keys so the performer can
choose (almost on the fly) which version works better for their voice.
This also allows the performer to change keys in the middle of the song
if they so desire. Some of the lyrics are different than normal because
I used to play this version with a traditional Irish Band (BarleyJuice).

Long Black Veil

[Intro][C][G][F][C]    {Alt Intro}(G)(D)(C)(G)

 C(G)
Ten years ago, on a cold dark night,
          G(D)                       F(C)      C(G)
there was someone killed 'neath the town hall light.
 C(G)
There were few at the scene, but they all agreed
        G(D)                F(C)      C(G)
that the man who ran looked a lot like me.
-------------------------------------------------

[CHORUS]
   F(C)         C(G)       F(C)       C(G)
She walks these hills in a long black veil.
    F(C)      C(G)            F(C)       C(G)
She visits my grave while the night wind wails.
C(G)          F(C)   C(G)  F(C)   G(D)     C(G)
Nobody knows, Nobody sees, Nobody knows but me.
-------------------------------------------------

    C(G)
The judge said "Son, what is your alibi?
        G(D)                           F(C)         C(G)
If you were somewhere else, then you won't have to die."
 C(G)
Well, I said not a word, though it meant my life
       G(D)                    F(C)         C(G)
For I'd been in the arms of my best friends wife.

[CHORUS]

-------------------------------------------------
   C(G)
The scaffold was high, and eternity neared
    G(D)                  F(C)       C(G)
She stood in the crowd and shed not a tear.
   C(G)
But sometimes at night, when the cold wind blows
     G(D)                       F(C)     C(G)
In a long black veil, she cries over my bones.

C(G)          F(C)   C(G)  F(C)   G(D)     C(G)
Nobody knows, Nobody sees, Nobody knows but me.

[Verse 1]

Westward from the Davis Strait
'Tis there 'twas said to lie
The sea route to the Orient
For which so many died
Seeking gold and glory,
Leaving weathered, broken bones
And a longforgotten lonely cairn of stones

Three centuries thereafter
I take passage overland
In the footsteps of brave Kelso
Where his sea of flowers began
Watching cities rise before me
Then behind me sink again
This tardiest explorer
Driving hard across the plain

And through the night, behind the wheel
The mileage clicking west
I think upon Mackenzie,
David Thompson and the rest
Who cracked the mountain ramparts
And did show a path for me
To race the roaring Fraser to the sea

[Verse 1]

```
G             D               G
If I listened long enough to you
            C       D                   G
I'd find a way to believe that it's all true
A               D             C              G
Knowing that you lied straight faced while I cried

Still I look to find a reason to believe
```

[Chorus]

```
             C            D                Em  D

```
       C              F              C                F
On the morning when I woke up without you for the first time
       C               G               C
I felt free and I felt lonely and I felt scared
    C          F             Am                F
And I began to talk to myself almost immediately
          C       G         F           G          C
Not being used to being the only person there, mhmmm

[Verse 2]

```
    C                F              C                       F
The first time I made coffee for just myself, I made too much of it
              C                  G              F                C
But I drank it all just cause you hate it when I let things go to waste
      C                    F                   Am              F
And I wandered through the house like a little boy lost in the mall
       C                  G               F               G
And an astronaut could've seen the hunger in my eyes from space
```

[Chorus]

And I sang

```
C             G             F             C
Oh, What do I do? What do I do? What do I do?

```

[Verse 3]

```
       C              F              C                F
On the morning when I woke up without you for the first time
      C                  G     F                   C
I was cold so I put on a sweater and I turned up the heat
        C              F              Am              F
And the walls began to close in and I felt so sad and frightened
              C            G               F        C
I practically ran from the living room out into the street
        C             F               C              F
And the wind began to blow and all the trees began to bend
        C                 G                 C
And the world in its cold way started coming alive
      C                  F           Am               F
And I stood there like a business man waiting for the train

They're spreading blankets on the beach

C             E7               Am

Girl From The North Country chords
Bob Dylan 1963 (The Freewheelin' Bob Dylan / Nashville Skyline) *

https://en.wikipedia.org/wiki/Girl_from_the_North_Country

G

G Bm C G
If you're travelin' in the north country fair,
G Bm C G
Where the winds hit heavy on the borderline,
G Bm C G
Remember me to one who lives there.
G Bm C G
She once was a true love of mine.

G Bm C G
Well, if you go when the snowflakes storm,
G Bm C G
When the rivers freeze and summer ends,
G Bm C G
Please see if she has a coat so warm,
G Bm C G
To keep her from the howlin' winds.

G Bm C G
Please see for me if her hair hangs long,
G Bm C G
If it rolls and flows all down her breast.
G Bm C G
Please see for me if her hair hangs long,
G Bm C G
That's the way I remember her best.

G Bm C G
I'm a-wonderin' if she remembers me at all.
G Bm C G
Many times I've often prayed
G Bm C G
In the darkness of my night,
G Bm C G
In the brightness of my day.
